

# Caring True Passion

Committed to Quality Care Since 2015

# *We stand for quality*

Nurses Group is a Staffing Agency providing experienced Nurses and Healthcare Assistants to Healthcare Facilities throughout Somerset, Dorset and Devon. We specialize in providing compassionate, quality, reliable staffing for healthcare needs. The agency is operated by well experienced health care professionals since 2015 and has grown organically since then.

We work with healthcare facilities of all sizes to help them fill staff shortages, improve the quality of care, and maintain a positive and productive environment. At Nurses Group, we are committed to matching qualified healthcare professionals with high class quality and reliable healthcare facilities.

# Extremely courteous

I have been working with The Nurses Group since May 2016. I have found they are extremely courteous and very helpful at short notice. The feedback that I have received from my staff regarding the agency staff he has provided has been very positive. It is reassuring for me to know that there is support at the end of the phone during periods of being short staffed.

**Manager,** Nursing Home, Somerset

The Nurses Group have been supplying staff to our home in Yeovil for the past year. Within this time, I can honestly say that all their staff have been professional and experts in their delivery of care often at short notice. I have no hesitation in recommending there services.

**Registered Manager,**  
Nursing Home, Yeovil

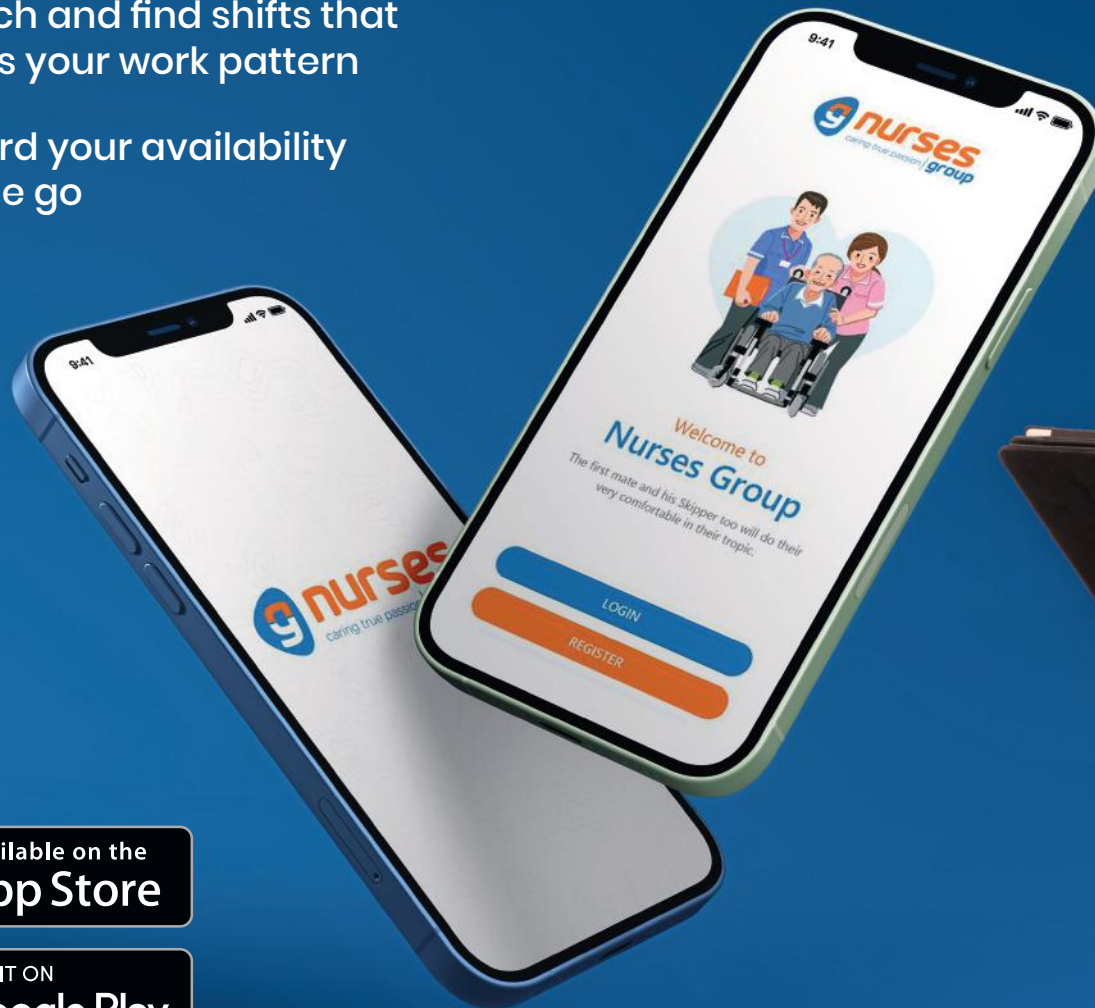

I joined nurses Group because I heard many good things about them. The hours are flexible and work around my family. The staff in the office are so friendly and helpful. They always get the shifts that I can work. I feel very supported in my job and nothing is too much trouble.
